

**REMARKS****I. Introduction**

These amendments and remarks are being filed in response to the Office Action dated July 9, 2008. Claims 2, 3, 5, 6, 11, 12 and 19-27 are currently pending. Claims 7-10 and 13-18 have been cancelled without prejudice. Claims 2, 3, 5, 11 and 12 were each indicated by the Examiner as allowable if rewritten to overcome the objection under 37 CFR 1.121(c) and to include all of the limitations of the base claim and any intervening claims, (Office Action dated July 9, 2008 at page 6). Claims 2, 3, 5, 11 and 12 have now been rewritten in independent form, and include markings to show all amendments made. Claim 6 has now been amended to depend from amended claim 2. New dependent claims 19-27 have been added, and are supported in the originally filed application, for example, at Table 1 on page 20.

No new matter has been added.

For the following reasons this application should be allowed and the case passed to issue. If this application is not allowed, Applicants submit this amendment should be entered upon filing an appeal, as it reduces the issues for appeal.

**II. Claim Objections under 37 CFR 1.121(c)**

The Examiner objected to the amendments to the claims filed on April 28, 2008, alleging that the corrections to the formulas (showing subscripts and superscripts) were not marked.

Applicants have now presented amended claims 2, 3, 5, 6, 11 and 12 with markings to show all amendments made relative to the preliminary amendment filed March 4, 2005, including markings to show the amendments made in the amendment filed April 28, 2008. As such, Applicants respectfully submit that the objection has been obviated.

**III. Claim Rejections Non-statutory Obviousness-type Double Patenting**

Claims 10, 13 and 15 were rejected on the grounds of non-statutory obviousness-type double patenting over claims 4-9 of U.S. Patent No. 7,288,889. Applicants respectfully disagree with the Examiners position. However, claims 10, 13 and 15 have been cancelled without prejudice, thereby obviating the rejection.

**C. U.S. Patent Nos. 5,744,233 or 5,985,175**

**D. WO 03/025090 or WO 03/025088**

**V. Claims 2, 3, 5, 6, 11 and 12**

Applicants acknowledge with appreciation, the indication of claims 2, 3, 5, 11 and 12 as being allowable if rewritten to overcome the objection discussed above at page 7 and to include all of the limitations of the base claim and any intervening claim.
